MEMORANDUM FOR USEUCOM Component Commanders

SUBJECT: USCINCEUR Policy letter number 00-01 (Support for Dependent Education)

1. The education of our children is one of our highest priorities. Proactive command involvement and support are essential to a successful partnership between our schools and the military community. In particular, we must stimulate communication among DoDDS-Europe, military commands and local communities. Commanders should promote participation in school/community forums, and encourage parents to participate in their children's education. Parent-teacher conferences are an important tool in the education of our children.
2. Your personal involvement will ensure our leaders stay engaged with our educational communities, and will send a clear message to service members that we will fully support the education of our children. This policy letter supercedes USCINCEUR Policy Letter Number 98-04, dated 13 Jul 98, Subject: Dependent Education.
